## END OF STRIKE NOW IN SIGHT

Sheriff Barrett Says Trouble in Chicago Will be Over in 24 Hours.

EXPECTS TO DECREASE THE FORCE OF DEPUTIES

New Strike Committee Empowered to Take Necessary Action.

Majority of Members of International Board Are Known to Be Opposed to Continuance of Fight--That New Committee Will Agree to Terms Offered Now Seems Certain.

By Associated Press. Chicago, June 20.—Sheriff Barrett got in close touch with the labor leaders today and gave out the following statement: "The strike will be over within twenty-four hours. I expect to make speedy arrangements to decrease the force of deputies."

PROSPECTS GOOD FOR SPEEDY SETTLEMENT.

Chicago, June 20.—Prospects of a speedy termination of the teamsters' strike became brighter to-day with the bringing into action of a new strike committee appointed by the teamsters' joint council and empowered in conjunction with the international executive board to settle the struggle without further consultations with the strikers.

A majority of the members of the international executive board are known to be opposed to a continuance of the strike and have used their influence during the last week toward bringing it to an end. It was on this account that the executive committee was asked to act with the council's peace committee in bringing the strike to a close.

That the new committee will agree to the peace terms offered by the employers seems practically certain. It is understood that should peace negotiations be blocked this time, through unforeseen circumstances a referendum vote on calling off the strike will be taken.

Edward Bickert, a non-union teamster employed by the National Express Company, was subjected to barbarous treatment to-day by four men alleged to have been strike sympathizers. Bickert was attacked in front of the teamsters union headquarters. After being knocked down by the men, three fingers of the right hand were broken and the finger nails pulled out by nippers, it is said. The victim appealed to the men to have mercy, but his cries were in vain and when the assailants left he was unconscious in the street where he was found later by a policeman.

The complainant was an enthusiastic admirer of the game. On September 3, 1904, while a spectator at the contest on the grounds between the New York national club and the Boston, a foul ball smote her on the nose. By Associated Press. Manila, June 20.—The Federal Convention reassembled and after a heated discussion decided to place among the resolutions a section advocating the policy of President Roosevelt to transfer the government of the island. With the assistance of America it is believed this policy, constantly and progressively followed, will result in complete self-government. The definite object desired is an ultimate independent republican government, but maintaining the necessary political union with the United States.

The radical wing of the party opposed the clause in the resolutions supporting Secretary Taft's policy and left the meeting to gather elsewhere.

## A DISGRACE TO VERMONT

WANTS BROTHER'S PICTURE TURNED FACE TO THE WALL

In Case Woman Meets Death in Green Mountain State.

Brother of Heroic Commander of Battleship Oregon Says Every Vermont-er Would Hang his Head in Shame—Picture will be Turned if the Execution Takes Place.

By Associated Press.

St. Joseph, June 20.—Captain Lloyd Clark of the United States supply station here, and a brother of Admiral Clark, U. S. N., who commanded the battleship Oregon during the battle of Santiago, and when the battleship made her famous voyage from Pacific waters to join Admiral Sampson's fleet, today sent a telegram to Governor Bell, of Vermont, protesting against the hanging of Mrs. Mary Rogers. The telegram says, among other things: "Vermont is again threatened with the horrible disgrace of twenty years ago. The reputation and honor of the Green Mountain state is in your hands. Should this poor, weak woman meet her death in a state where my brother has been so greatly honored, please face his picture towards to wall. Every real Vermont-er would hang his head in shame." The letter was also signed by Captain Clark's wife.

Admiral Clark's picture was placed on the wall of the state capitol soon after his famous voyage, and it is with his brother's consent that Captain Clark makes the request. Governor Bell declared today that he had made provision to see that the picture was turned to the wall if Mrs. Rogers was hanged.

## RUSSIA TOO POOR TO CONTINUE WAR

Her Poverty Must Decide the Issue When Plenipotentiaries Meet to Discuss Terms of Peace--England Said to Desire Annihilation of Russian Army in Manchuria.

By Associated Press.

St. Petersburg, June 20.—The Novoye Vremya today printed a despatch from London in which its correspondent declared he was in possession of information to the effect that Great Britain is advising Japan against the conclusion of an armistice. "Russia," the despatch added, "is not considered to be sufficiently weakened. Great Britain hopes that Field Marshal Oyama will succeed in defeating Linewitch's army and thus relieve her of the nightmare that the army may later be shifted to the borders of Afghanistan for operations against India."

The radical Nashashin asserts that the "phantom of financial exhaustion hanging over Russia," is really the greatest friend of peace and draws a harrowing picture of 90 per cent of the empire's population living as their forefathers did in the sixteenth century, groaning under the constantly increasing debts piled up by militarism and the adventures of the autocracy which clever bookkeeping can no longer conceal.

## ITALIAN LIVES WITH WALL OF HIS HEART PUNCTURED

Difficult and Rare Operation Performed by Surgeons in New York Hospital May Result in Recovery.

By Associated Press.

New York, June 20.—A stab wound sustained by a young Italian, which had punctured the wall of the heart and penetrated the right auricle, has been sewed up by surgeons at the Harlem hospital. The operation is difficult and rare, but the patient is still alive and hopes are entertained that he will recover. The operation lasted thirty-five minutes. The subject of the operation was Camello Detaneo. He was stabbed during a saloon row. Companions walked him twelve blocks to the hospital. Finding the fellow still alive, despite such treatment, the surgeons hurried him to the operating table. To get at his heart they sawed off an inch and a half of the third right rib. Their next task was the ligation of two arteries. It was found that the right auricle of the heart had been seriously punctured, the width of the wound being about one-quarter of an inch. This was closed with a single stitch and the usual dressing. Detaneo not only survived, but regained partial consciousness in a short time and may recover.

## JAPAN ANXIOUS FOR A BATTLE

But Slender Hope Exists for Armistice in Time to Prevent Engagement.

EVERYTHING IS FAVORABLE TO ARMIES OF GEN. OYAMA

Japan With Reluctance Would Forego Present Advantages.

Armistice of Six Weeks Would Allow Russians to Rush Reinforcements into Manchuria and Strengthen Defenses of Vladivostok to Withstand Prolonged Siege.

By Associated Press.

St. Petersburg, June 20.—The only hope for an armistice pending the meeting of the peace plenipotentiaries seems to rest with President Roosevelt and even that is considered slender. So far as known the president has not taken a positive step in this direction. The impression here continues strong that Japan only with great reluctance could be induced to forego the advantages of her strategic position which despite the tone of the official advice from the front is regarded as being altogether favorable to Field Marshal Oyama and agree to a suspension of hostilities for at least six weeks during which time thousands of reinforcements would reach General Linewitch and Vladivostok would be strengthened with munitions and supplies to withstand a siege. Indeed, it is suggested that Japan deliberately planned to postpone the meeting long enough to give Oyama a chance to administer to the Russians a fresh defeat on land in order to rob the war party in Russia of their last card and facilitate acquiescence to her terms. Considering the situation, President Roosevelt's triumph will be all the greater if he could now crown his work by an agreement which would at least prevent another bloody battle pending the show of hands at Washington. At the British embassy the Associated Press was informed that Great Britain had not offered Japan any advice on the subject. Brigadier General Barry and his colleagues in view of the prospects of a general engagement are hastening their round of official visits in order to get to the front in time to witness something of the fighting.

## THE RETURN OF ENG'R. WALLACE
